Work Experience

Checkpoint - Izmir, Turkey | Feb 2026 - Present | berkbelcioglu.com
Founder
• Designed, developed, and launched three public Shopify apps from scratch: Store Health, Theme Drift and Live Shoppers, plus Bidify, a Shopify ecosystem directory.
• Built with GraphQL Admin API, Bulk Operations, Polaris, App Bridge, Theme App Extensions, App Proxy, Shopify Functions and a realtime WebSocket layer.

Build in Amsterdam - Remote | Aug 2025 - Present | buildinamsterdam.com
Senior Shopify Developer
• Develop Shopify Plus storefronts for global brands, primarily Alpine Hearing Protection.
• Build custom features using Liquid, JavaScript and Online Store 2.0 architecture.
• Optimize storefront performance, Core Web Vitals and multi-market experiences.
• Collaborate with designers, strategists and merchants to deliver scalable Shopify solutions.

Electric Maybe - Remote | Dec 2025 - Sep 2026 | electricmaybe.com
Senior Shopify Developer
• Built storefront and checkout features for Shopify Plus brands Voldt and Interior Icons across multi-market, multi-language stores.
• Delivered a VAT exemption flow with a Checkout UI Extension, EU VIES validation and a Shopify Discount Function.
• Built B2B trade pricing, sales-ranked color swatches and custom review experiences.

KKAT - Hong Kong | June 2024 - Present | kkat.org
Senior Shopify Developer
• Developed Shopify stores based on design specifications, with section-wise coding from Figma to Shopify themes.
• Created a library of completed sections to streamline future development and improve efficiency.
• Migrated stores from other platforms to Shopify.

Solverhood & Analyzify & Risify - Tallinn | Jan 2022 - Jun 2024 | solverhood.com
Medior Front End Developer - Shopify
Maintained and developed client and internal solutions using Liquid, JavaScript, HTML, and CSS; managed in-store events via the Analyzify app for long-term reliability; and built SEO-focused tools and custom projects under the Risify app to strengthen store identity and visibility.
